HOUSE TYPE A2 SEMI-D

3 bed semi-detached house | 108m² / 1162ft² | 2 storey

LOCATION & SETTING

Forest Hill is our current development. Work has been in progress on this site since 2007 and approximately 135 houses have been successfully completed and sold to date. Located on the south side of Carrigaline, this is an ideal location for the growing family. Overlooking the Owenabue estuary and surrounded by beautiful views across the Cork countryside, Forest Hill is an exclusive new development located on a south-facing site. Close to every facility including excellent schools, shops, restaurants and sports fields it is only 10 minutes walk from the vibrant and growing town centre of Carrigaline.

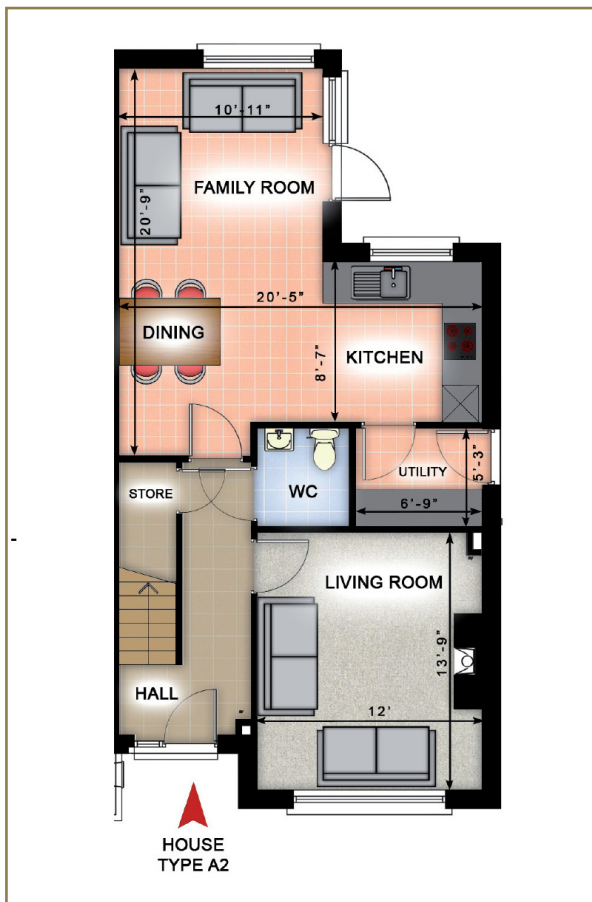

Forest Hill has enjoyed much attention to design detail at various levels. The variety and arrangement of building types is designed so as to create clearly identifiable areas of character within the development, which avoids the uniform and monotonous suburban developments of the past. With Astra Construction's

years of experience in building family homes, all homes have been designed in order to maximise usable living spaces and room sizes. The best quality red brick facades are offset with painted, smooth cement render and traditional bay windows and vibrant red clay roof tiles, which add character to the country setting of the houses. Specially made coloured timber front doors with sidelights and in the larger houses fanlights, smartly capped with locally custom made lead roof porch canopies on ornate timber frames, invite visitors into the spacious hall ways of these homes.

Beautiful photographs and well-constructed commentaries do not really do complete justice to the simple beauty of this development. It's best to visit and experience this development for oneself, and experience it all first hand.

FLOOR PLANS

GROUND FLOOR

FIRST FLOOR
